

# Georgia

## Compliance Officer

Georgia joined OpenView in July 2018 as a trainee administrator, and after six months of working with us and completing her in-house training, she progressed to Service Co-ordinator.

We asked Georgia to talk us through her career with OpenView so far. She said, *'Over the last three years I have gained experience working across different contracts in the electrical division, which varied between domestic electrical testing, fire door repair and replacement, electrical reactive repair contracts and servicing contracts.'*

*I have also been able to undertake various training courses during my career to help with my progression, including team leading, first aid, minute taking and courses in Microsoft Excel. In 2020, I joined the OpenView Management Academy, which helped me to progress into my Compliance Officer role.'*

We asked Georgia what she likes about working in the Fire & Security Industry. She advised, *'I enjoy working in the Fire and Security industry because it is a really interesting topic and knowing that we are making a difference to housing associations and councils is really rewarding. I enjoy helping others, from my colleagues, to clients and customers. The industry is constantly changing so I have to constantly adapt within my role.'*

We asked Georgia about her most memorable moment at OpenView and she told us, *'getting my promotion is the most memorable because I have worked really hard to get where I am. I also enjoy the office atmosphere.'*
